

## The Home Loan Health Check

I assume that you have at least one relationship with a lender or bank, however I imagine you would at least be interested to know if your finances could be managed differently—to the point where you can gain significant benefits.

We have a service called *The Home Loan Health Check*. It costs you nothing and takes very little time. The service provides two positive outcomes for you: the first is that you find out what you have can't be improved, and the second is that what you have can be improved—so either way you get a benefit.

Please call to arrange for *The Home Loan Health Check* to be carried out for you.

Finally, if you have any financial decisions coming up, I would be happy to offer my ideas on how to approach these complex issues.

**Chris Lee 6206 9200 / 0408 496 406**
